

DERMALIKER 23

| | |
|------------------|--------------------------|
| Chemical nature | Emulsifiable natural oil |
| Appearance | Liquid yellow oil |
| Active substance | 99.5 ± 0.5 % |
| Ionicity | non-ionic |

Applicazioni

DERMALIKER 23 è un olio naturale auto-emulsionabile indicato per aumentare l'effetto scurente.

In aggiunta al MICROFILLER 160 migliora la stuccatura del fiore senza pregiudicare i futuri riagganci.

Main applications

DERMALIKER 23 is a self-emulsifiable natural oil suitable to improve the darkening effect.

In addition to MICROFILLER 160 improves the filling of grain without affecting further applications.

KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications.

Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility.

Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.

Our technical service is at your disposal for any recommendation.
