

# DERMALIKER 460

Chemical nature	Mineral oil
Appearance	Brown viscous liquid
Active substance	99.0 ± 1.0 %
Density	0.90 ± 0.03

## Applicazioni

DERMALIKER 460 è un olio sviluppato per migliorare la resistenza all'acqua di pellami idrorepellenti e non idrorepellenti: le pelli ottenute hanno un caratteristico aspetto ingrassato.

DERMALIKER 460 si applica con macchina spalmatrice a rullo su pelli a pieno fiore o smerigliate. Le quantità variano, in base all'effetto desiderato, da 8 a 20 g/pq, da solo oppure in combinazione con altri oli o cere.

## Main applications

DERMALIKER 460 was developed to improve water repellency on waterproof and non waterproof leather, giving a characteristic greased leather.

DERMALIKER 460 is applied by roller on full grain and buffed leathers.

The required amount changes depending on the desired effect, ranging typically from 8 to 20 g per square foot, alone or in combination with other oils or waxes.

**KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C**

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications.

Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility.

**Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly.**

**Stir well before using the product, close tightly the container to preserve the properties.**
