

MICROCOMPACT 030

Chemical nature	Compact binder
Appearance	Off white liquid
Solids content	30.0 ± 2.0 %
pH	8.0 ± 1.0
Ionicity	Anionic

Applicazioni

MICROCOMPACT 030 è un compound studiato per rifiniture di pelli smerigliate per articoli verniciati stampati sbagnati, particolarmente apprezzato per la sua resistenza al taglio della stampa.

Main applications

MICROCOMPACT 030 is a compound studied for finishing of buffed leather for varnished articles embossed, particularly valuable thanks to its resistance to press cutting.

KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications.

Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility.

Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.

Our technical service is at your disposal for any recommendation.
