

MICROCOMPACT K10

Chemical nature	Compound of synthetic polymers and waxes
Appearance	Off white liquid
Solids content	20.0 ± 1.0 %
pH	8.0 ± 1.0
Ionicity	Cationic

Applicazioni

Ausiliario per fondi cationici, a base di cere cationiche e polimeri sintetici, dotato di buona copertura.
Può essere adoperato in combinazione con resine cationiche come MICROPUR K-2008.

Main applications

Auxiliary for cationic ground finishing, based on cationic waxes and synthetic polymers, having good covering power.
It can be used in combination with cationic resins such as MICROPUR K-2008.

KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications.

Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility.

Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.

Our technical service is at your disposal for any recommendation.
