

MICROFIX 1061/OP

Chemical nature	Water dispersion of polyurethane
Appearance	Liquid
Solids content	14.0 ± 1.0 %
pH	8.5 ± 1.0
Ionicity	Anionic

Applicazioni

MICROFIX 1061/OP è un poliuretano alifatico in dispersione acquosa con alto grado di opaco, asciutto di media morbidezza.
Trova impiego soprattutto su pelli arredamento e pelletteria per applicazioni finali in rifiniture completamente acquose ad alte tenute e solidità.

Main applications

MICROFIX 1061/OP is a water dispersion of aliphatic polyurethane and it forms very matt, dry and medium-soft films.
It is suitable for water-borne finishing of furniture and leather goods articles with high fastness.

KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications.
Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility.
Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly.
Stir well before using the product, close tightly the container to preserve the properties.
