

# MICROTEX ACRILATO 205

Chemical nature	Water emulsion of acrylic co-polymer
Appearance	Milky liquid
Solids content	30 ± 2 %
pH	7,5 ± 1,0
Ionicity	Anionic

## Applicazioni

MICROTEX ACRILATO 205 è un legante acrilico appositamente studiato per l'impregnazione del cuoio smerigliato. Si distingue per l'eccezionale potere penetrante anche su pelli di scarso assorbimento. Per ottenere un buon grado di penetrazione va miscelato con MICRODRIVER 1535.

## Main applications

MICROTEX ACRILATO 205 is an acrylic binder particularly studied for impregnating buffed leather. It penetrates very well, even in scarcely absorbing leathers. Best results are achieved mixing with MICRODRIVER 1535.

**KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C**

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications. Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility. **Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly. Stir well before using the product, close tightly the container to preserve the properties.** Our technical service is at your disposal for any recommendation.
