

# MICROTEX ACRILATO 230

Chemical nature	Water emulsion of acrylic co-polymer
Appearance	Milky liquid
Solids content	36 ± 2 %
pH	7,5 ± 1,0
Ionicity	Anionic

## Applicazioni

MICROTEX ACRILATO 230 è una resina acrilica auto-reticolante. Forma un film medio duro, elastico, poco appiccicoso molto tenace e di buone solidità. Trova il suo impiego sia su pelli smerigliate che su pieno fiore, buona copertura e buona resistenza all'incisione della stampa. Su pieno fiore migliora gli sfregamenti sia ad umido che a secco senza caricare il fiore.

## Main applications

MICROTEX ACRILATO 230 is a self-crosslinking acrylic resin. It forms a medium hard film, elastic, with low stickiness, very adhesive and with good fastness. It can be used both on buffed or full grain leathers, giving good covering and good resistance to printing. It improves rubbing fastness both wet and dry on full grain leather without overcharging the grain.

**KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C**

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications.

Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility.

**Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly.**

**Stir well before using the product, close tightly the container to preserve the properties.**
