

MICROTOP 100

Chemical nature	Modified casein binder
Appearance	Viscous liquid
Solids content	14.0 ± 1.0 %
pH	8.0 ± 1.0
Ionicity	Anionic

Applicazioni

MICROTOP 100 è un legante a base caseina e poliammide. Il prodotto si presta per articoli dove sia necessario esaltare la trasparenza e la brillantezza delle rifiniture.
In miscela con resine diminuisce la termoplasticità e ne migliora la resistenza allo sfregamento.

Main applications

MICROTOP 100 is a casein-polyamide based binder.
It is particularly suitable for all articles with high clearness and brightness features.
It can also be used in resins blend, in order to improve rubbing fastness and decrease thermoplasticity of films.

KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications.

Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility.

Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.

Our technical service is at your disposal for any recommendation.
