

# MICROTOP 115

Chemical nature:	Emulsion of proteins and modified waxes
Appearance:	ivory liquid
Total Solids:	18.0 ± 2.0 %
pH (10 % water solution):	8.5 ± 1.0
Charge:	anionic

## Applicazioni

MICROTOP 115 è un prodotto anionico a base di cere e proteine che grazie alla sua composizione chimica fornisce un film medio-morbido con eccellente potere legante e un ottimo potere stuccante, mascherando eventuali bassi di fiore, fornendo alla pelle una buona uniformità. È compatibile con tutti i prodotti anionici e non ionici.

## Main applications

MICROTOP 115 is an anionic product based on proteins and waxes which, thanks to its chemical composition, gives medium soft film with excellent binding power and very good sealing power, so masking blind grain, giving the leather a good uniformity. It is compatible with every anionic and non-ionic products.

**KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C**

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications.

Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility.

**Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly.**

**Stir well before using the product, close tightly the container to preserve the properties.**
