

MICROWAX 404

Chemical nature	Water emulsion of waxes
Appearance	Whitish liquid
Solids content	15.0 ± 2.0 %
pH	8.5 ± 1.0
Ionicity	Anionic

Applicazioni

MICROWAX 404 è un'emulsione di cere sintetiche non contenenti VOC. È un prodotto che può essere usato per migliorare le caratteristiche superficiali di rifiniture a base acquosa. In particolare, migliora la resistenza al graffio. Da impiegare in quantità compresa fra l'1 e il 5 % sul totale applicato, aggiungendo il prodotto alla fine e mescolando lentamente.

Main applications

MICROWAX 404 is a water emulsion of waxes, without VOC. It can be used to improve the surface characteristics of water based finishing formulations. In particular, it improves the resistance to scratch. It should be used from 1 to 5 % based on the total amount, adding at the end through slow stirring.

KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications. Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility. **Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly. Stir well before using the product, close tightly the container to preserve the properties.** Our technical service is at your disposal for any recommendation.
