

MICROWAX PULL 435

| | |
|-----------------|----------------------------|
| Chemical nature | Water emulsion of paraffin |
| Appearance | liquid |
| Solids content | $31.0 \pm 2.0 \%$ |
| pH | 7.0 ± 1.0 |
| Ionicity | Anionic |

Applicazioni

MICROWAX PULL 435 è un'emulsione anionica di paraffina, molto adatta per ottenere effetti pull-up sia su pieno fiore che su fiore smerigliato. Ha inoltre un ottimo potere stuccante, riduce gli assorbimenti e conferisce aspetto liscio ed omogeneo senza alterare le caratteristiche di adesione.

Main applications

MICROWAX PULL 435 is an anionic emulsion of paraffin, very suitable to obtain pull-up effects, either on full or corrected grain. It also has excellent sealing features, reduces absorption and confers smooth and homogeneous look, without affecting the final top adhesion.

KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications. Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility.

Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.
