

DERMACLEAN FN/N

Anionic surfactant characterised by wetting and detergent action.

TYPICAL ANALYSIS

Appearance	Liquid
Composition	Alkylarylsulphonate, sodium salt
Active substance	23±3 %
Ionic character	Anionic
pH (10 % solution)	7.0 ± 1.0
Stability to electrolytes	Stable to electrolytes normally used in tannery

PROPERTIES

DERMACLEAN FN/N is particularly suitable in wetting-back and degreasing of very dry skins of whatever origin. As a dyeing auxiliary, it enables a more rapid and even distribution of the dye.

APPLICATION

- Soaking 0.15÷0.6 %, based on salt weight or:
1÷3 %, based on crust weight for sheep
and goat skins
- Degreasing 1÷3 %, based on shaved weight
- Dyeing auxiliary 0.4÷0.6 %, based on shaved weight.

When correctly stored, it is stable 12 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

Expiry date refers to the product well closed in the original container, in fresh and dry area. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.
