

DERMADOL K70

DERMADOL K70 is a fatliquor based on synthetic and natural oils.

TYPICAL ANALYSIS

| | |
|------------------------|------------------------------|
| Appearance | Yellow to light brown liquid |
| pH (sol. 10%) | 7.0 ± 1 |
| Active substance | $40 \pm 3 \%$ |
| Electrolytes stability | good |
| Lightfastness | good |

PROPERTIES

DERMADOL K70 is recommended for fatliquoring garment and upholstery leather: it penetrates deeply into the leather and gives a very soft, light weight and full handle.

DERMADOL K70 can be used as sole fatliquor, but also in combination with other fatliquors.

The resulting leather has high tear and tensile strength. Dye shades are level and full.

APPLICATION

Amounts to be used range from 5 to 15 % depending on the desired article.

When correctly stored, it is stable 12 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

Expiry date refers to the product well closed in the original container, in fresh and dry area. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.
