

DERMADOL LE85

DERMADOL LE85 is an anionic fatliquor based on natural and synthetic oils.

TYPICAL ANALYSIS

Appearance	Red brown fluid
pH (10 % solution)	6.5÷8.5
Lightfastness	Good

PROPERTIES

DERMADOL LE85 imparts every kind of leather considerable softness and fullness, giving an exceptionally smooth and full grain.

DERMADOL LE85 can be used alone or as touch modifier in combination with anionic fatliquor and to get particularly light crusts.

APPLICATION

From 5 to 10 % on the shaved weight for most applications.

When correctly stored, it is stable 12 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

Expiry date refers to the product well closed in the original container, in fresh and dry area. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.
