

DERMADOL LTK/N

Fatliquor based on synthetic and natural oil.

TYPICAL ANALYSIS

Appearance	Off white fluid paste
pH (sol. 10%)	6.5 ÷ 8.5
Active content	40 ± 3 %
Light fastness	Good

PROPERTIES

DERMADOL LTK/N gives a stable and fine emulsion, suitable for a uniform distribution through leather's section.

Its fatliquoring properties are well balanced and give the leathers a good softness, fullness and a fluid hand.

The grain results sufficiently elastic without compromising its firmness and its adhesion.

DERMADOL LTK/N is particularly suitable as primary fatliquoring for every kind of leather such as nappa for shoes, bags, furnishing and dresses.

APPLICATION

From 2 to 10 % in most applications.

When correctly stored, it is stable 12 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

Expiry date refers to the product well closed in the original container, in fresh and dry area. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.
