

DERMADOL MAL

DERMADOL MAL is an anionic fatliquor based on sulphated synthetic and natural oils.

TYPICAL ANALYSIS

Chemical character	sulphated oils with phospholipids and synthetic softening agents
Appearance	Viscous mid-brown liquid
Active content	85 ± 3 %
pH (10 % emulsion)	6.0÷8.0
Acid stability	Good
Salt stability	Good
Chrome stability	Not recommended in chrome bath
Light fastness	Good

PROPERTIES

DERMADOL MAL imparts outstanding softness and fullness to all types of leathers giving an exceptionally smooth, well-nourished handle.

DERMADOL MAL when used on suede leathers produces a soft silky handle together with outstanding lustre.

DERMADOL MAL can be used alone or as a handle modifier in conjunction with other anionic fatliquors.

APPLICATION

From 5 to 10 % based on shaved weight in most applications.

When correctly stored, it is stable 12 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

Expiry date refers to the product well closed in the original container, in fresh and dry area. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.
