| | |
|-----------------|--------------------|
| Appearance | Brown thick liquid |
| Ionic character | Non-ionic |
| Active content | 98 ± 2 % |
| Lightfastness | Low |

PROPERTIES

DERMADOL P is a fat material which gives softness and fullness to leather to be used in combination with other fatliquors.

APPLICATION

The amount to be used, in combination with other oils and fatliquors, depend on desired article.

When correctly stored, it is stable 12 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

Expiry date refers to the product well closed in the original container, in fresh and dry area. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.
