

# DERMADOL RA

DERMADOL RA is a self-emulsifying natural fatliquor.

## TYPICAL ANALYSIS

Appearance	yellow liquid
pH (10 % emulsion)	$6.0 \pm 1.5$
Active substance	$99 \pm 1 \%$
Acid stability	very good
Electrolyte stability	very good
Lightfastness	very good

## PROPERTIES

DERMADOL RA was specifically developed to obtain soft leathers, low density, relatively dry hand character, and a low fat content. It has considerable electrolyte stability.

The very good light fastness of DERMADOL RA makes it particularly suitable for white and pastel shades.

DERMADOL RA can also be used as a finishing auxiliary in mixtures of oils for greased articles.

## APPLICATION

Recommended amounts are depending on the item to obtain.

When correctly stored, it is stable 12 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

**Expiry date refers to the product well closed in the original container, in fresh and dry area.** Some particularly sensitive products, when open, should be used rapidly.

**Stir well before using the product, close tightly the container to preserve the properties.**
