

DERMASOFT AR

DERMASOFT AR is an auxiliary syntan intended for neutralisation and mild retannage of chrome tanned leathers.

TYPICAL ANALYSIS

Appearance	Light brown powder
Solids	> 92 %
pH (10 % solution)	7.0±1.0

PROPERTIES

DERMASOFT AR is a spray-dried powder which is readily soluble in water. It has low astringency and possess strong dispersing action. These properties are of great value in the neutralising and retanning of chrome leather.

On grain leather the mild action of DERMASOFT AR results in a smoother, tighter grain whilst on suedes it gives a fine, tight nap.

DERMASOFT AR is also recommended for use in combination with other retanning agents such as vegetable extracts and resins.

APPLICATION

The amounts to be used are generally 1.0÷3.0 % based on shaved weight. These amounts can be adjusted depending on the desired result.

When correctly stored, it is stable 36 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

Expiry date refers to the product well closed in the original container, in fresh and dry area. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.
