TYPIVCAL ANALYSIS

Appearanced	beige powder
Solids	> 92 %
pH (5 % soluton)	5.5÷7.5

PROPERTIES

DERMASOFT BW is a dyeing auxiliary product with excellent levelling properties, both on pastel and medium shade dyeings.
Its main characteristic is lightfastness.

APPLICATION

Generally an amount of 1-3 %, based on shaved weight, is enough.

When correctly stored, it is stable 36 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

Expiry date refers to the product well closed in the original container, in fresh and dry area. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.
