

DERMASOFT EC-K

DERMASOFT EC-K is an auxiliary product based on organic acids.

TYPICAL ANALYSIS

| | |
|--------------------|--------------|
| Appearance | white powder |
| pH (10 % solution) | 1.5÷3.0 |
| Water solubility | soluble |

PROPERTIES

Thanks to its particular chemical characteristics and to the sequestering power toward several cations, DERMASOFT EC-K acts as an auxiliary helping to improve the characteristics of the surface of chrome tanned leather, which then results clean and level.

APPLICATION

1 % is the amount generally used.

When correctly stored, it is stable 36 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

Expiry date refers to the product well closed in the original container, in fresh and dry area. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.
