

MICROCOMPACT CTG

Chemical nature	Compact binder
Appearance	Creamy viscous liquid
Solids content	21.0 ± 2.0 %
pH	8.0 ± 1.0
Ionicity	Anionic

Applicazioni

Per la sua particolare composizione, MICROCOMPACT CTG è raccomandato per ottenere un livello di lucido elevato senza usare altri leganti.

Il prodotto può essere applicato diluito con acqua circa 1:1 e fissato, ad esempio, con auto-fissante MICROFIX 1070.

Main applications

MICROCOMPACT CTG is particularly suggested wherever high glossy effect is requested without using other binders.

It can be applied by spraying, diluted with water 1:1, then fixed, for example, with MICROFIX 1070.

KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications.

Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility.

Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly.

Stir well before using the product, close tightly the container to preserve the properties.
