

# MICROCOMPACT T-NAP

Chemical nature	Compact binder
Appearance	Creamy viscous liquid
Solids content	15.0 ± 1.0 %
pH	6.5 ± 1.0
Ionicity	Anionic

## Applicazioni

MICROCOMPACT T-NAP è una miscela di resine, poliuretani e cere e trova impiego su tutti i tipi di pelle pieno fiore come nappa o double face molto aperto, al fine di ricreare una superficie uniforme liscia e molto tenace, senza però alterarne le caratteristiche di morbidezza .  
Si consiglia dopo l'utilizzo a spruzzo di stirare o satinare con buona temperatura e pressione.

## Main applications

MICROCOMPACT T-NAP is a blend of polymers and waxes, suitable for full grain leathers like nappa or double face, in order to re-create an even and smooth surface without affecting softness.  
We suggest to plate after application with good temperature and pressure in order to obtain best results.

**KEEP FROM FREEZING - CAN BE STORED FOR 6 MONTHS BETWEEN +5 AND +35°C**

This sheet is a synthetic illustration of the product to enable the user to employ it at the best. Properties and values are not, therefore, sales specifications.  
Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes. Application of the products lies outside the scope of our control and therefore comes within the customer's sphere or responsibility.  
**Expiry date refers to the product well closed in the original container, correctly stored. Some particularly sensitive products, when open, should be used rapidly.**  
**Stir well before using the product, close tightly the container to preserve the properties.**
