

# BIOTASE B/123

Enzymatic bating agent.

## TYPICAL ANALYSIS

Appearance	Clear powder
Chemical composition	Blend of proteolytic enzymes, activating salts and inert materials
Concentration	<i>approx</i> 1000 I.v units

## PROPERTIES

BIOTASE B/123 is a powerful all-purpose enzymatic bating agent, to be used on delimed hides or together with delimiting products, to remove undesired protein substances.

## APPLICATION

The amount to be used and time of action may change according to the hide to be treated and the item to be produced.

For example, for upper skins it is recommended to use from 0.3 to 0.6 %.

When correctly stored, it is stable 36 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

**Expiry date refers to the product well closed in the original container, in fresh and dry area.** Some particularly sensitive products, when open, should be used rapidly.

**Stir well before using the product, close tightly the container to preserve the properties.**
