

# DERMACLEAN KS

DERMACLEAN KS is an anionic surfactant.

## TYPICAL ANALYSIS

Appearance	colourless or straw coloured liquid
Chemical composition	mixture of sulphated alkylethers
Ionic character	anionic
pH(10 % solution)	10.5 ± 1.0
Stability to electrolytes	Stable to electrolytes normally used in tannery

## PROPERTIES

DERMACLEAN KS is a very good wetting/cleansing agent with very rapid action. Thanks to its particular chemical constitution, it can be used in liming and bating.

DERMACLEAN KS may also be used as emulsifier for crude oils.

## APPLICATION

Requested amounts change according to the skin and article to be obtained.

When correctly stored, it is stable 12 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

**Expiry date refers to the product well closed in the original container, in fresh and dry area.** Some particularly sensitive products, when open, should be used rapidly.

**Stir well before using the product, close tightly the container to preserve the properties.**
