

# DERMAFLEX AR30 LIQ.

DERMAFLEX AR30 LIQ. is an anionic resin tanning agent based on a water soluble acrylic polymer.

## TYPICAL ANALYSIS

Appearance	colourless to straw coloured liquid
Solids	$30 \pm 2 \%$
pH (10 % solution)	$6.5 \pm 1.0$
Stability/Compatibility	Stable throughout pH range
Light Fastness	Excellent

## PROPERTIES

DERMAFLEX AR30 LIQ. is suitable for filling and tightening all types of chrome and semi-chrome leathers. It is especially useful in tightening loose belly and flank areas. The product's independence of pH makes it a very versatile retanning agent.

Due to its strong interaction with the chrome within the leather, the maximum filling and tightening effect is achieved using DERMAFLEX AR30 LIQ. immediately before the chrome retanning step, so upgrading low quality wet blue.

DERMAFLEX AR30 LIQ. has excellent light and ageing fastness and is suitable for the production of white and pastel shade leathers.

## APPLICATION

An amount from 2.0 to 4.0 % normally fulfils every kind of requirements.

When correctly stored, it is stable 12 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

Expiry date refers to the product well closed in the original container, in fresh and dry area. Some particularly sensitive products, when open, should be used rapidly.

**Stir well before using the product, close tightly the container to preserve the properties.**
