

# DERMALENE CB

DERMALENE CB is a natural based mixture suitable for retannage.

## TYPICAL ANALYSIS

Appearance	Brown powder
Solid content	> 92 %
pH (10 % solution)	3.0 –5.0

## PROPERTIES

DERMALENE CB is readily soluble in water and compatible with all vegetable and synthetic tanning agents.

It can be used to retan chrome leather and particularly vegetable tanned leather. DERMALENE CB is also recommended to improve the penetration and distribution of vegetable tanning agents.

## APPLICATION

Recommended amounts are generally ranging from 2 to 5 %.

When correctly stored, it is stable 36 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

**Expiry date refers to the product well closed in the original container, in fresh and dry area.** Some particularly sensitive products, when open, should be used rapidly.

**Stir well before using the product, close tightly the container to preserve the properties.**
