

DERMALENE SG

DERMALENE SG is a diphenyl-sulphone / phenolic universal replacement syntan.

TYPICAL ANALYSIS

Appearance	Off white powder
Solid content	> 92 %
pH (10 % solution)	3.8±1.0

PROPERTIES

DERMALENE SG produces an efficient replacement tanning effect with medium tightness, fine grain and excellent fullness. It possesses good dispersing properties and is particularly suitable for retannage with vegetable extracts. It also exhibits good light fastness and produces a clean colour. The leather retanned with DERMALENE SG possess an excellent fullness with a “rubber spring” touch of medium softness.

APPLICATION

Percentages of application depend on the required effect, and generally range from 2-5 % on upper leather production till 8-10 % on light coloured crusts.

When correctly stored, it is stable 36 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.
