

# DERMALENE SRG liq

DERMALENE SRG liq is a syntan based on condensation derivatives of dihydroxydiphenylsufone.

## TYPICAL ANALYSI

Appearance	limpid orange brown liquid
Active content	$40 \pm 3 \%$
pH (10 % solution)	$4.0 \pm 1.0$

## PROPERTIES

DERMALENE SRG liq has a good tanning power and the resulting leathers are full and tight, with a good white level and very good fastness to light and ageing.

DERMALENE SRG liq may be used in combination with both syntans and vegetable tanning agents: it is to be pointed out the possibility to use it in combination with Tara in retanning.

This product can be used in many metal (Cr, Al, etc.) free processes.

## APPLICATION

Amounts to be used generally range from 3 to 10 %.

When correctly stored, it is stable 12 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

**Expiry date refers to the product well closed in the original container, in fresh and dry area.** Some particularly sensitive products, when open, should be used rapidly.

**Stir well before using the product, close tightly the container to preserve the properties.**
