

# K-LIME GLT

K-LIME GLT is a reducing agent.

## TYPICAL ANALYSIS

Appearance	Colorless fluid
pH (undiluted)	1.0 ÷ 2.5
Water solubility	Miscible

## PROPERTIES

K-LIME GLT is an auxiliary product used for unhairing of skins, helping the elimination of epidermis. It improves scudding and yield performance.

Its use significantly reduces the quantity of classical unhairing agents, such as sodium sulphide. As a consequence, an excessive swelling is avoided, with a better distending action.

K-LIME GLT is particularly useful in hair recovering processes.

## APPLICATION

The amounts to be used can vary according to the hides to be limed. It is recommended an average amount of 0.05÷0.5 % on pelt weight.

When correctly stored, it is stable 12 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

**Expiry date refers to the product well closed in the original container, in fresh and dry area.** Some particularly sensitive products, when open, should be used rapidly.

**Stir well before using the product, close tightly the container to preserve the properties.**
