

# K-LIME KCK/N

Grain cleaning product suitable for the work-up of pelt skins.

## TYPICAL ANALYSIS

Appearance	colorless liquid
Water solubility	Soluble
pH (10 % water solution)	9-11

## PROPERTIES

K-LIME KCK/N is a very good grain cleaning product. Thanks its chemical properties it cleans very softly giving a well open bulb, so enabling a good penetration of products in subsequent stage of process without altering the properties of the skins.

K-LIME KCK/N, with its particular formulation, is used at the first stage of washing of pelts, solubilize the lime, avoids the carbonation of lime, and it smoothens the wrinkles. The different batches of leather treated with K-LIME KCK/N are more uniform and behaves more uniformly in subsequent deliming and bating.

## APPLICATION

Float : 150% - 200%

water : 22°C – 28°C

K-LIME KCK/N : 1%

Degreasing agent : 0.15% - 0.2%

Rotate : 40' – 60'

Drain then deliming and bating as usual.

When correctly stored, it is stable 12 months.
