

# PATO IMP

PATO IMP is based on a carboxylated butadienic resin..

## TYPICAL ANALYSIS

Appearance	Milky white liquid
Solids	22-24 %
pH (10 % solution)	6.5 ÷ 8.5
Solubility	Miscible with water in all proportions
Ionic character	Anionic-non ionic

## PROPERTIES

PATO IMP is used as a drum impregnating agent. It has a good penetration and gives the leather a full and gummy hand character. The emulsion, whose particles are medium size, is mechanically stable.

## APPLICATION

The amounts to be used depend on the particular application.

When correctly stored, it is stable 12 months.

This sheet is a synthetic illustration of the product to enable the user to employ it at the best.

Properties and values are not, therefore, sales specifications.

Taking into account the several possibilities of application of this product, no warranty of the results is possible.

**Expiry date refers to the product well closed in the original container, in fresh and dry area.** Some particularly sensitive products, when open, should be used rapidly.

**Stir well before using the product, close tightly the container to preserve the properties.**
